

UNDER SECRETARY OF DEFENSE

1100 DEFENSE PENTAGON  
WASHINGTON, DC 20301-1100

MAR 19 2010

COMPTROLLER

The Honorable Ike Skelton  
Chairman  
Committee on Armed Services  
U.S. House of Representatives  
Washington, DC 20515

Dear Mr. Chairman:

The American Recovery and Reinvestment Act of 2009, Public Law 111-5 (the Recovery Act), was designed to stimulate economic growth by creating millions of jobs through investments in infrastructure improvements and expanding energy research in an effort to lead the way toward energy independence for our country. On March 20 and April 28, 2009, the Department submitted its initial plans to implement the Recovery Act, identifying specific military construction and facility sustainment, restoration, and modernization (FSRM) projects that improve facilities and energy efficiency.

At that time, the Department indicated that it would amend the plans if significant changes occurred during implementation. The Department notified the Congress of Recovery Act plan revisions on September 14, 2009, December 24, 2009, January 22, 2010, February 3, 2010, and March 4, 2010. This letter notifies the Congress of additional FSRM program changes affecting the Air Force. As detailed in enclosure (1), this revision adds 90 projects funded from bid savings.

A revised state summary is provided in enclosure (2). The Department appreciates the continued support of the Congress for Defense facility and infrastructure programs. Similar letters have been sent to the chairmen and ranking members of the Senate Armed Services Committee and the Committees on Appropriations of the House and Senate.

Sincerely,

A handwritten signature in cursive script that reads "Robert F. Hale".
